Recognising and escalating deterioration

Bespoke care home and home care training

Benefits from previous participants include:

Improved outcomes

Increased staff confidence in escalation

Improved communication between care teams and clinicians

Increased job satisfaction

Reduced safeguarding referrals

Reduced conveyances to hospital

Reduced ambulance call outs

Training covers:

- The importance of care planning and measures to prevent deterioration.
- Using a simple tool to spot the early signs that someone's health is deteriorating.
- How to escalate concerns using an easy structured tool to quickly convey all the key information needed by the clinician.
