

Digital Outpatients Sharing Event 3rd July 2019

Part of
*The***AHSN***Network*

Suzanne Horobin
Head of Innovation Exchange

#EMDigitalOP

Housekeeping

What is the Innovation Exchange?

- Coordinated approach to identify, select and support the adoption of innovation to improve our economy and patients' lives
- Commissioned by the Office for Life Sciences (OLS) so innovations reach patients faster
- Respond to regional health system challenges identified in partnership with regional STPs and ICSs
- Identify products with most potential for national impact for review by the Accelerated Access Collaborative

Local and national dimensions and can differ between AHSNs but share the same core functions of:

Needs analysis

Signposting

Validation

Adoption and spread

Innovation Exchange East Midlands

1. **Engage & consult** to establish common challenges
2. **Cross-sector Innovation Exchange workshop** to explore the challenges & identify potential solutions

Innovation Exchange East Midlands

1. **Engage & consult** to establish common challenges
2. **Cross-sector Innovation Exchange workshop** to explore the challenges & identify potential solutions
3. Support collaboration to refine themes & build on connections made -
‘Solution Groups’ co-produce solutions against target outcomes
4. **A ‘call for proposals’, with funding** & support to rapidly deploy chosen solutions in demonstrator sites

Needs analysis

East Midlands Innovation Exchanges

- Long term conditions
- Medicines optimisation
- Rural health
- Continuing healthcare

The Innovation Exchange process enables us to unlock priorities of stakeholders and the system.

AHSN Support to Digital Transformation of Outpatients

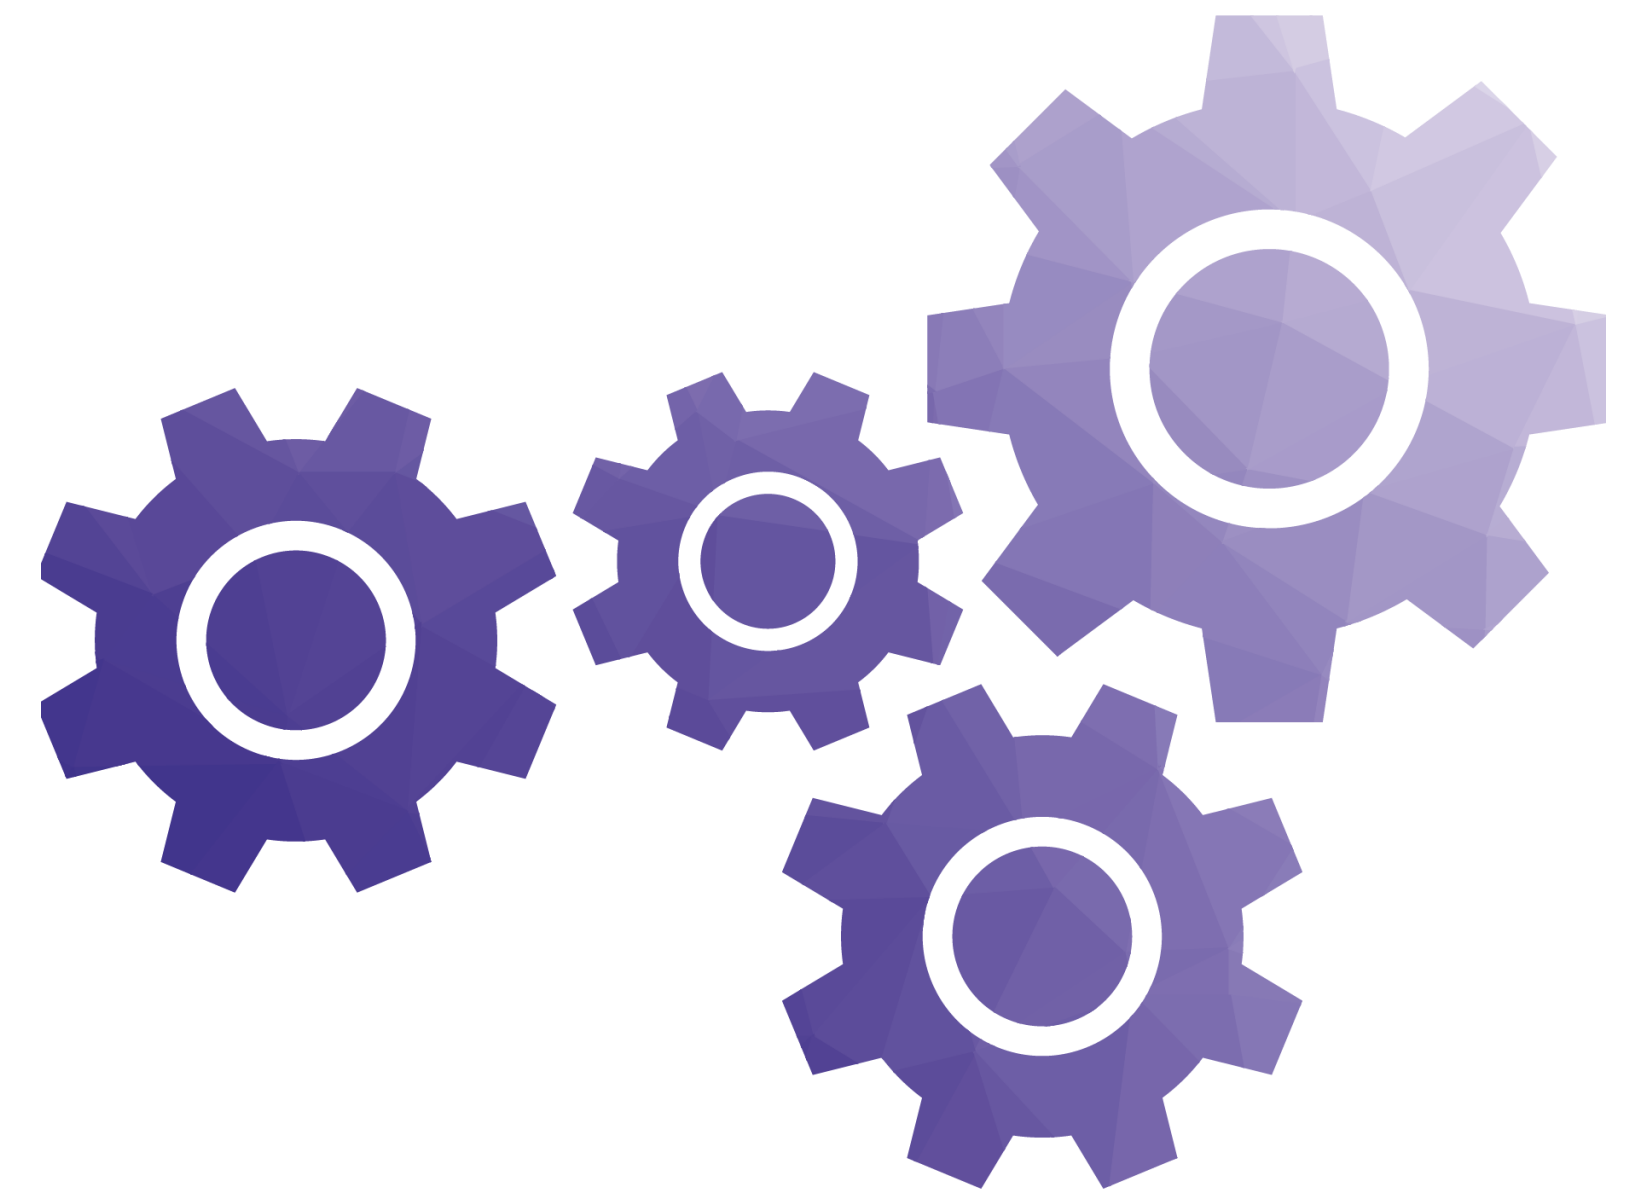

Part of
*The***AHSN***Network*

#EMDigitalOP

A virtual library of Digital Questionnaires

The problem:

Potential for significant duplication of clinical effort as clinical specialties England (and beyond) seek to devise digital questionnaires

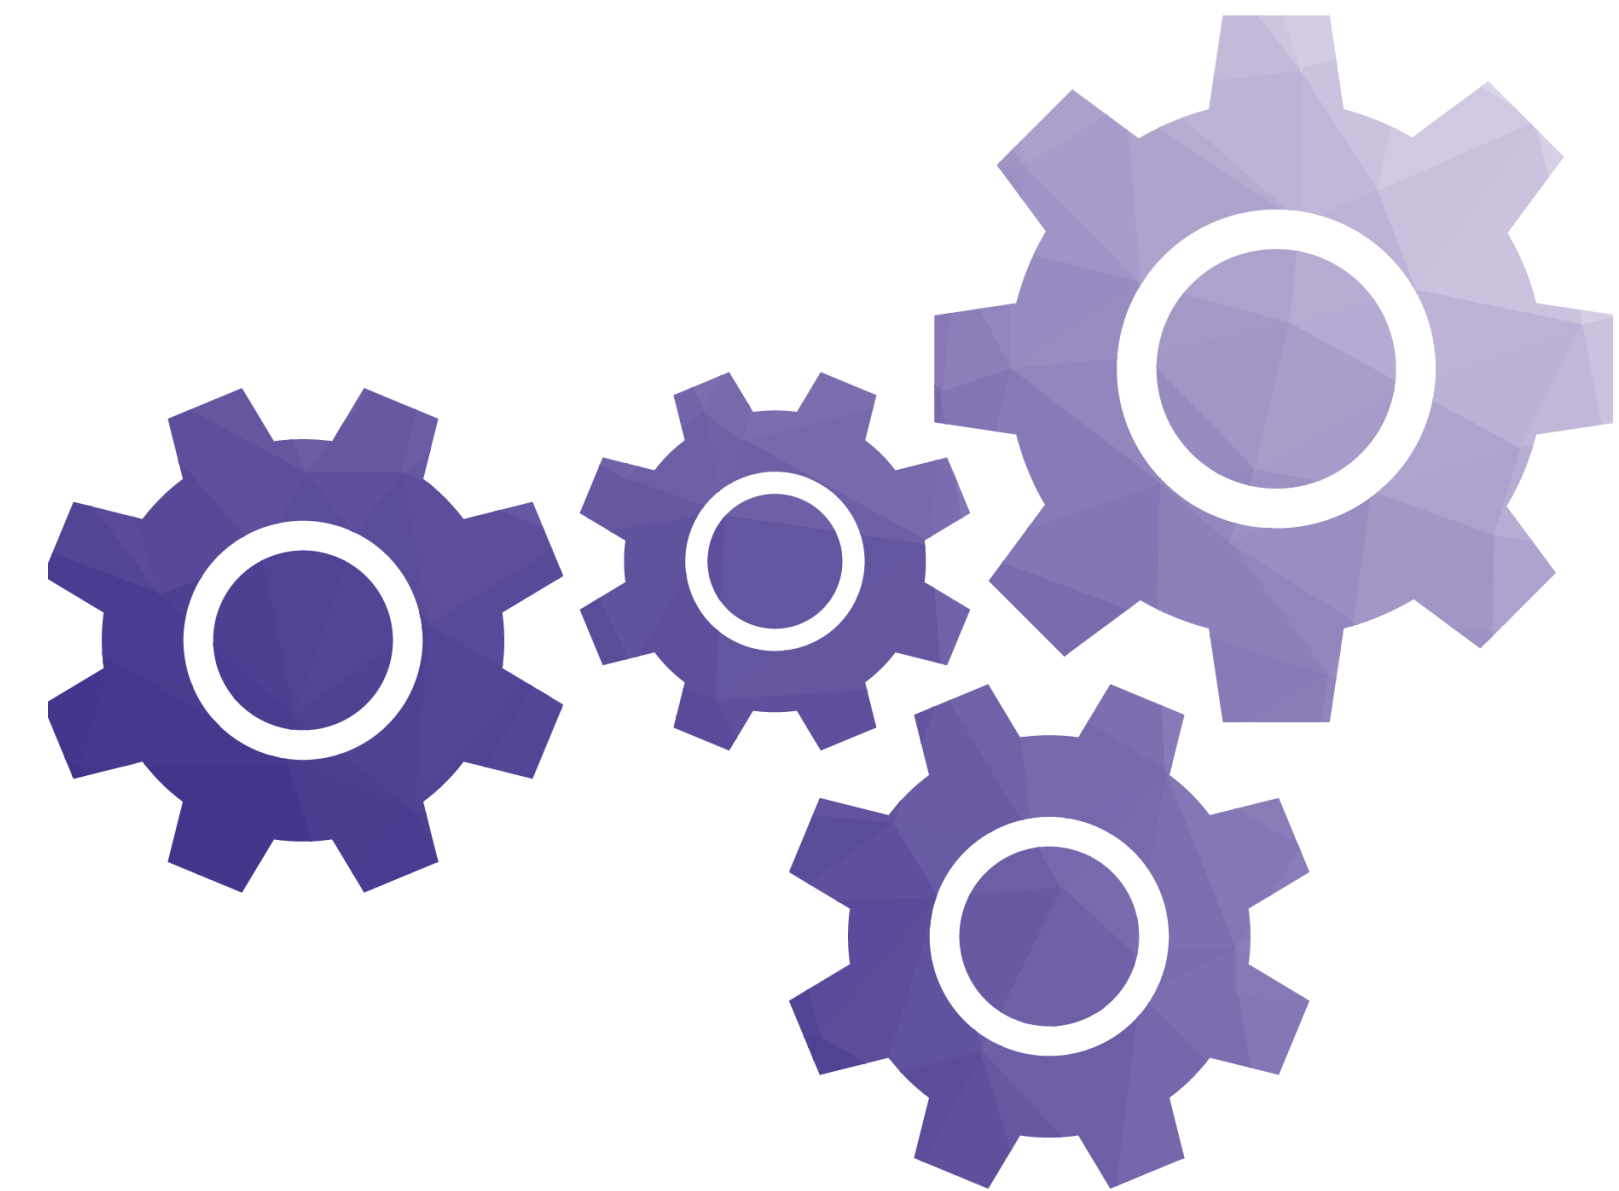

#EMDigitalOP

A virtual library of Digital Questionnaires

The idea:

An AHSN Network approach to the facilitation / brokerage of a 'library' of technology agnostic Digital Outpatients questionnaires & PROMs to speed up digital transformation in outpatients.

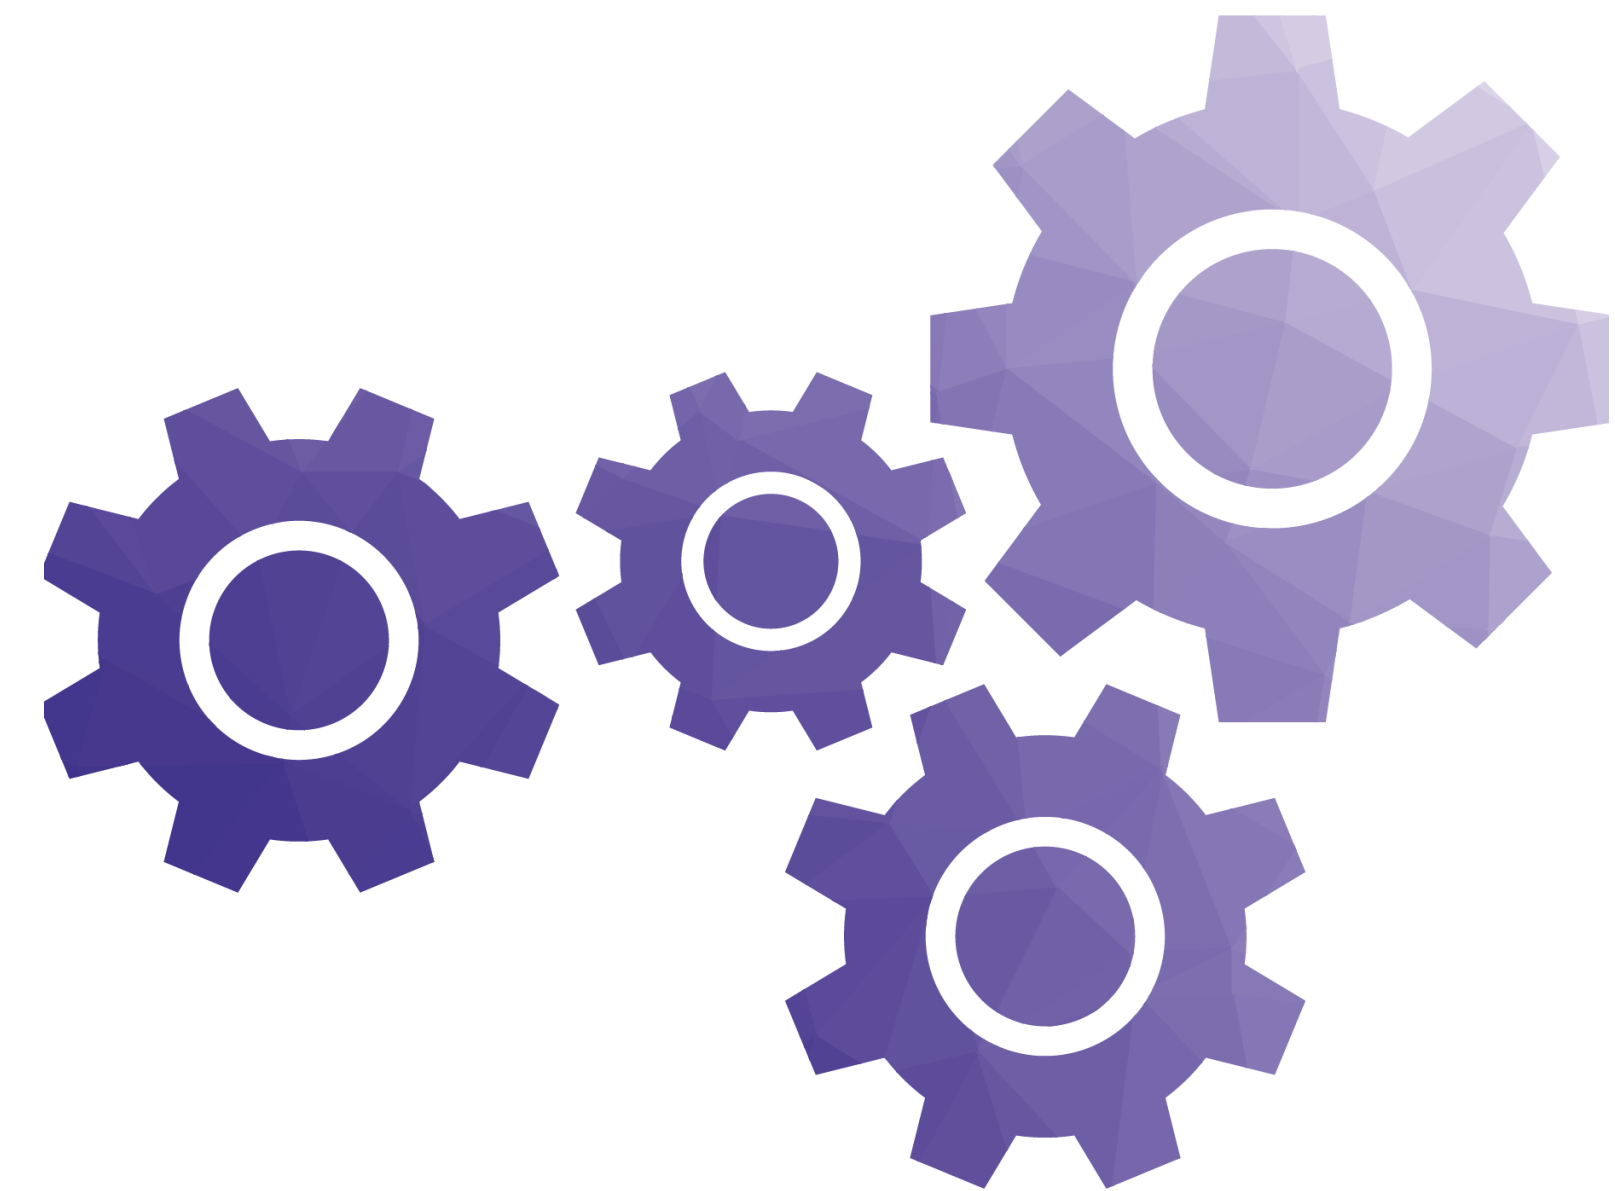

#EMDigitalOP

A virtual library of Digital Questionnaires

Proposals:

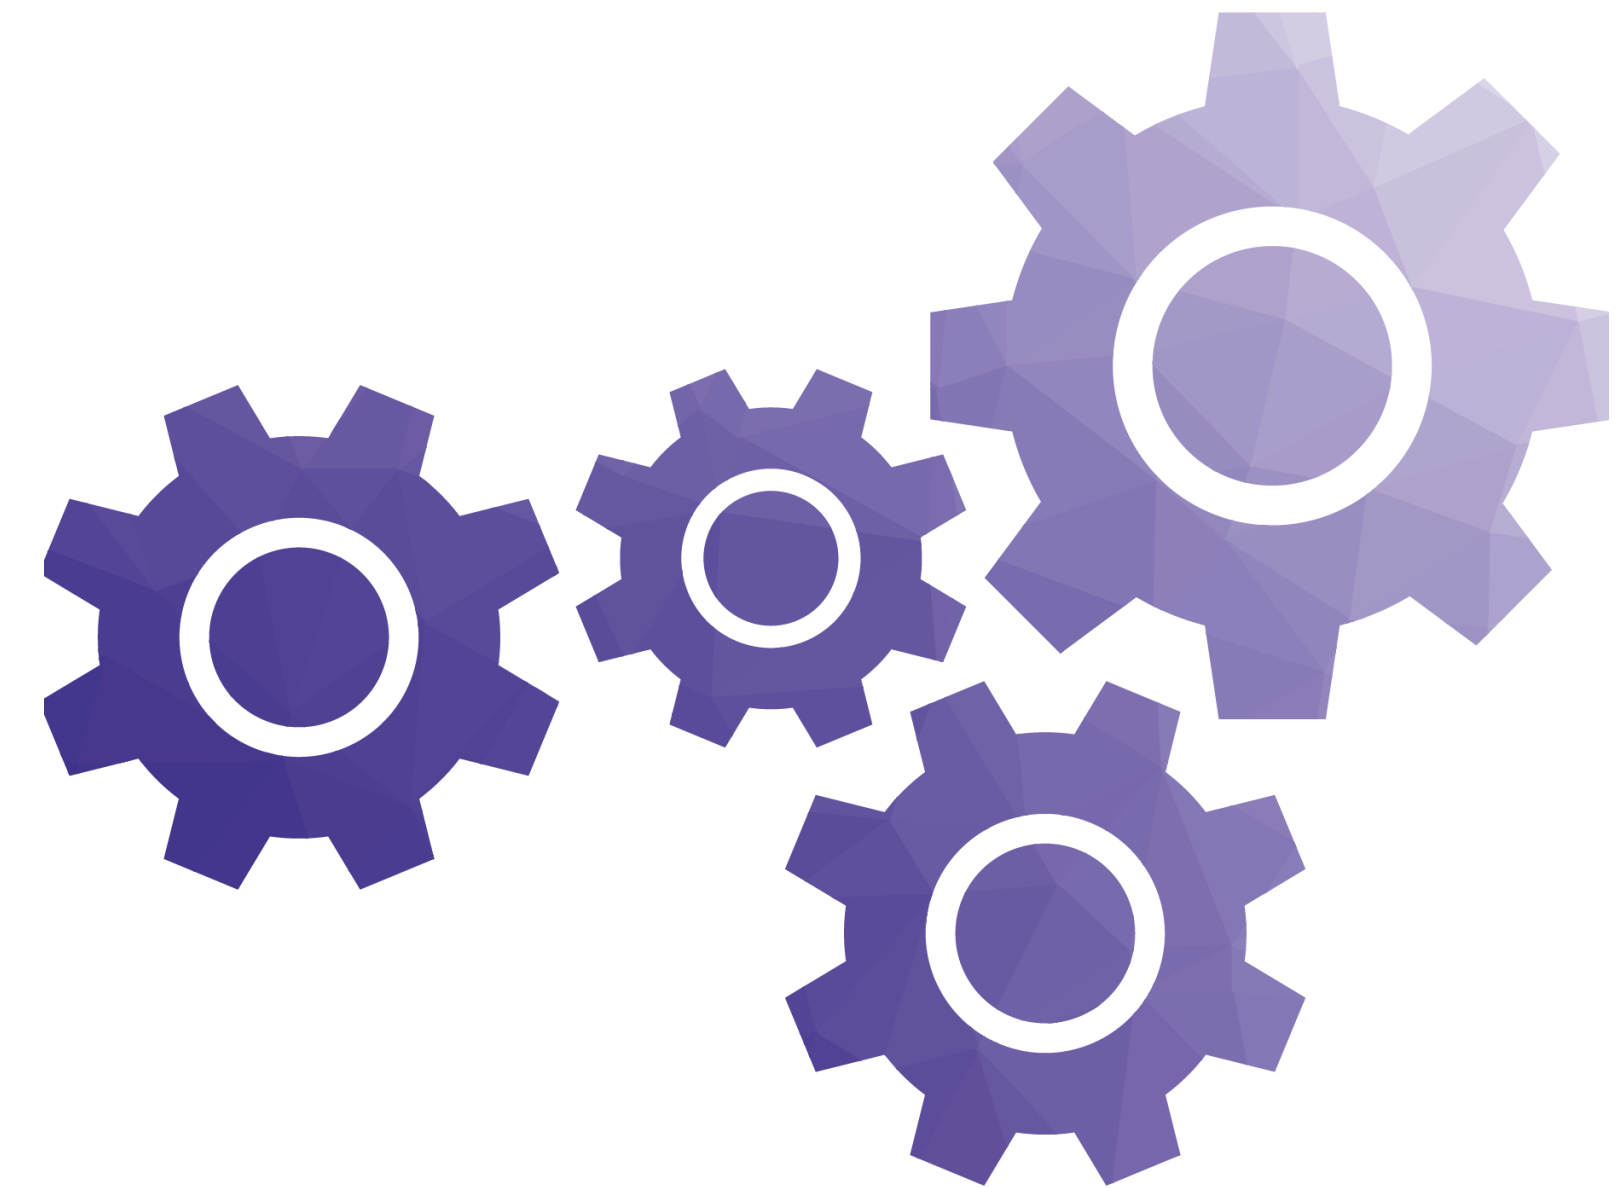

- Technology agnostic, clinically validated digital questionnaires that are part of clinical practice in an NHS organisation
- Possible use of NHS Futures platform – replication of GDE network blueprint process

A virtual library of Digital Questionnaires

To be explored:

- What would work for you?
 - How / where would you want to access?
 - What validation would you require?
 - What would you be prepared to contribute?
-
- Please contact
